ACT Career Services

This program works with a variety of job seekers in achieving their employment goals, while assisting a large array of local employers with their recruitment and retention needs. The personalized service that job seekers and employers receive through ACT Career Services pays rich rewards for businesses and employees alike. Services provided include: job preparation, career planning, job development/job search support, training and retention support, advocacy, and ongoing consultation.

Day Program

The Day Program provides on-site services and community integration for adults. The wide array of activities support individuals' recreational, social, leisure and fitness interests and goals. Diverse activities and community access opportunities are scheduled through a person-centered process that supports independence and personal choice, as well as addressing acquisition, retention, or improvement in the areas of self-help, socialization, and adaptive skills.

Community Living

This service provides support to individuals with disabilities who desire to live in their own homes and apartments throughout the community. The program assists them to live as independently as possible with an emphasis on involvement in and becoming part of their community.

In-Home Services

The focus of this program is to provide services and support to children and adults of all ages in their natural home and community. Services include behavior development, daily living skills, social skills training, respite, individual therapy and group classes.
